Offering Summary

Traffic Count:

 Sale Price:
 \$1,015,000

 Lot Size:
 4.83 Acres

 Zoning:
 BPC-2

 City:
 Winter Haven

 County:
 Polk

 State:
 Florida

 APN:
 2528143452000000040

14,300 ± Cars/Day (Recker Hwy)

Property Overview

Presenting a rare opportunity to acquire 4.83 ± acres of strategically positioned, BPC-2 zoned land along Recker Highway in the heart of Winter Haven's rapidly growing industrial and logistics corridor. This lot provides flexible development potential for business park, flex-industrial, or light manufacturing uses under Polk County's Business Park Center-2 (BPC-2) zoning. It offers direct access to Recker Hwy (SR 655), and is ideally situated between US Highway 92 and State Road 540, with quick access to Polk Parkway (SR 570) and Interstate 4. The site lies within proximity to the CSX Intermodal Logistics Center and is well-suited for phased or master-planned development.

Property Highlights

- Shovel-ready BPC-2 zoning allows a mix of industrial, distribution, office, and flex-space uses
- Excellent frontage and access from Recker Hwy, a major east-west arterial
- Positioned within a high-growth industrial submarket with supportive demographics and workforce
- Near national and regional logistics operators, supporting distribution and fulfillment demand

Sewer

- Trunk Gravity Sewer Main: Installed along George Trail, sized to handle full park buildout across the lot.
- Force Main Connection: A dedicated force main is in place and routed via directional bore under Recker Highway to connect with the City of Auburndale's municipal sewer system.
- Lot Connection: Parcel is pre-serviced with lateral stubs or capacity allowances, reducing cost and permitting time for industrial users.
- Pump Station-Ready: Infrastructure supports a lift station if future expansion or usage demands it.

Water

- Supplied by the City of Auburndale with service points stubbed at the park entrance and within George Trail.
- Can be individually metered for domestic, process, or irrigation use.
- Fire protection capacity assumed with looped connection or high-pressure availability suitable for commercial suppression systems.

Electric

- Primary power provided by TECO (Tampa Electric) with connection points along the eastern boundary (Recker Highway).
- Park layout supports pad-mount transformer installation and underground service conduits as needed.
- Suitable for light industrial uses requiring high-load three-phase service.

Telecom & Internet

- Spectrum Cable and Frontier Fiber/DSL service planned, with final fiber optic and DSL line placements pending.
- 5G Cellular Coverage Confirmed: AT&T and Verizon infrastructure already present, enabling wireless operations, data transfer, and IoT applications for logistics and automation users.

Storm Water

- 2-acre regional stormwater retention pond (Lot 7 Common Area) already constructed.
- 36" stormwater main installed along George Trail channels runoff from all lots.
- No on-lot detention required for users—drainage impact is mitigated off-site.
- System designed for code-compliant retention and governed by HOA maintenance.

Site Development & Environmental Documents Available:

- Topographic Survey 2011
- Platting with Structures 2024

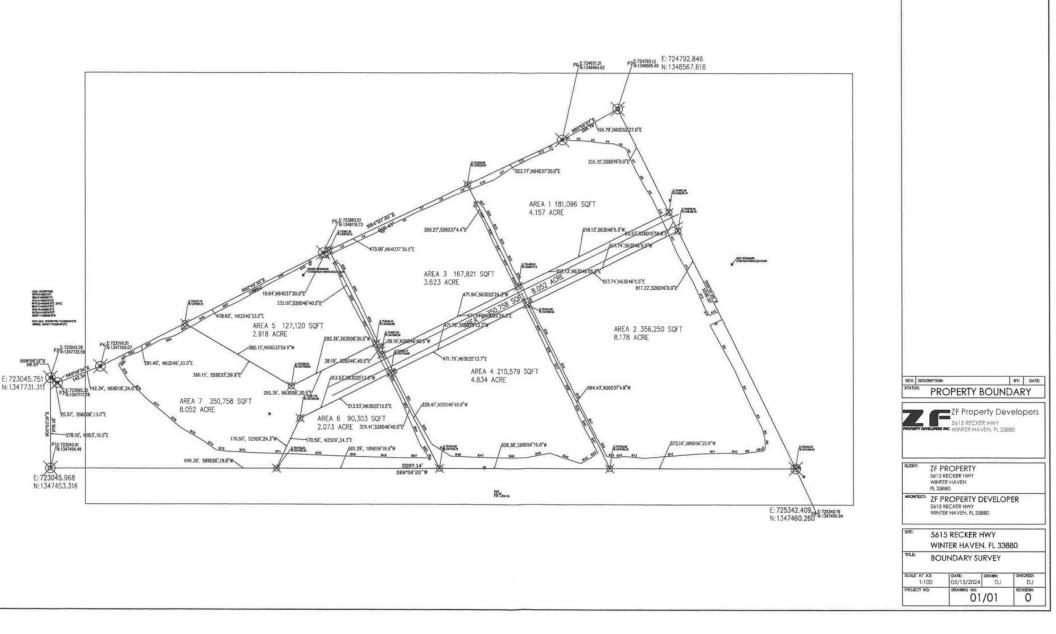

Property Owners Association & Fee Structure

Each lot within Recker Business Park is part of a well-structured Property Owners Association (POA), designed specifically to support the long-term functionality, appearance, and operational integrity of the park. The Recker Business Park Association oversees the shared responsibilities of the business park so individual lot owners don't have to. This includes maintenance of private roads, landscaping, lighting, drainage systems, signage, and common utilities. Each owner pays a share of the costs through regular assessments, which helps keep the park clean, functional, and professionally maintained
